FOR IMMEDIATE RELEASE

**Napa/Sonoma Heart Surgeon and his wife Unveils a New Winery
that Places Women's
Heart Health at the Core of their Family-Run Business**
*GrapeHeart Vineyards Unveils the First Vintage of their
Cabernet Sauvignon and Red Blend 'The Beat'*

Napa, CA, May 20, 2013—GrapeHeart Vineyards unveiled the first vintage of their GrapeHeart Cabernet Sauvignon and 'The Beat' red wine blend. Sourced from the GrapeHeart Estate Vineyards in Suisun Valley, California, the winery was founded by a heart surgeon and his wife who are dedicated to promoting heart health, as well as making superior wines.

As part of today's announcement, GrapeHeart Vineyards also announced that they are now the official wine partner of the Sister to Sister Foundation, a women's heart health foundation that is dedicated to preventing heart disease in women. GrapeHeart Vineyards will donate a percentage of their wine sales to the Sister to Sister Foundation and will promote the foundation through their sales and marketing efforts.

"Heart disease is the #1 killer for women and we are pleased to support such a wonderful organization," said Isabel Deeik, Proprietor and Managing Partner of GrapeHeart Vineyards. "It's a cause that is near and dear to our hearts."

"Quality is essential and is never an accident, whether it's in heart surgery or wine crafting," said Dr. Ramzi Deeik, Proprietor of GrapeHeart Vineyards. "My wife and I started this project committed to doing the very best and we feel our first vintage is a reflection of our team's hard work and dedication."

The GrapeHeart Estate is located in the Suisun Valley AVA, a unique eight miles long valley Southeast of Napa. GrapeHeart Vineyards sits on 40 acres, backing up to the base of the southwestern slope of the Mt George Range. This location makes for optimal growing conditions for balanced, elegant wines that offer a distinctive sense of place.

GrapeHeart's winemaker is Fred Dellivert, whose experience includes world-renowned wineries like Newton, Far Niente, Duckhorn, Hafner, Plumpjack, and Cade. He most recently worked at Martin Estate, Clark-Claudon and Tamber Bey as winemaker.

“All our grapes are sourced exclusively from our estate vineyards. That, combined with attention to detail, has set the stage for the GrapeHeart wines,” said Fred Dellivert.

GrapeHeart wines are available online at <http://www.grapeheartwines.com> or by calling the winery at (707) 332-0253. The 2010 GrapeHeart Cabernet Sauvignon is \$54.00 and the 2010 The Beat \$69.00 for retail. The total production is 775 cases.

About the Sister to Sister Foundation

The Sister to Sister Foundation, a 501 (c)(3), is the first organization to dedicate its mission to the prevention of heart disease in women. As the leading provider of free heart-health evaluations, Sister to Sister has performed 100,000 free cardiovascular screenings to help women understand their personal risk for heart disease, and how healthy lifestyle choices can reduce that risk up to 82%.
